Day 1: Departure from the UK and overnight in Rio.

Day 2: The group were picked up from their hotel in Rio de Janeiro at 08.00 and transferred to Serra dos Tucanos Lodge. Species seen on the transfer included the following; Cocoli Heron, Kelp Gull, Least Grebe and Magnificent Frigatebird. On arrival at the lodge the group quickly settled into birding the gardens and watching many species of tanagers feeding at the bird tables and studying the several species of hummingbirds that regularly come to the sugar feeders on the verandas. **Species of note for the day included:** Maroon-bellied and Plain Parakeets, Saw-billed Hermit, Sombre Hummingbird, Black Jacobin, Violet-capped Woodnymph, Blond-crested Woodpecker, Ferruginous Antbird, Chestnut-bellied Euphonia, and Green-headed, Golden-chevroned, Brazilian and Ruby-crowned Tanagers.

Day 3: After breakfast we headed off for the hours drive to the start of the Portao Azul trail. In the afternoon we birded along the road to Macae de Cima. **Species of note for the day included:** Brown Tinamou, Scale-throated Hermit, Saffron Toucanet, Yellow-browed and Yellow-eared Woodpeckers, Rufous-capped Spinetail, Grey-bellied Spinetail, Pallid Spinetail, Dusky-tailed Antbird, Ochre-rumped Antbird, Bertoni's Antbird, Gilt-edged and Brassy-breasted Tanagers, and Half-collared Sparrow.

Day 4: After breakfast we made the one hour drive to the Serra dos Orgaos National Park. The first couple of hours were spent in the lower section and the rest of the day was spent in the upper section of the park. **Species of note for the day included:** White-throated Hummingbird, Plovercrest, Lesser Woodcreeper, White-browed Foliage-gleaner, Rufous-backed Antwren, Star-throated Antwren, Brazilian Antthrush, Rufous and Black-cheeked Gnateaters, Serra do Mar Tapaculo, Eye-ringed Tody-tyrant, Sharpbill, White-rimmed Warbler, Azure-shouldered Tanager and Uniform Finch.

Day 5: After breakfast we drove the 20 minutes to the start of the Theodora trail. After lunch we birded along the Cedae trail. **Species of note for the day included:** Solitary Tinamou, White-throated and Scaled Woodcreepers, Pale-browed Treehunter, Slaty Bristlefront, Swallow-tailed Cotinga, Oustalet's Tyrannulet, Grey-capped Tyrannulet and Olive-green Tanager.

Day 6: Clear skies meant an attempt at higher altitudes was warranted. The first couple of hours were spent on the upper section of the Pico de Caledonia access road. Most of the rest of the day was spent on the lower section but the Macae de Cima road was revisited for an hour on the way back to the lodge. **Species of note for the day included:** Red-legged Seriema, Red-eyed Thornbird, Large-tailed Antshrike, Rufous-tailed Antbird, Black-and-gold Cotinga, Velvety Black-tyrant, Blue-billed Black-tyrant, Shear-tailed Grey Tyrant, and Diademed Tanager.

Day 7: Without doubt the Three-toed Jacamar is one of the target species of the whole week. We departed early for an hours drive to where the days birding began. **Species of note for the day included:** Blackish Rail, Ash-throated Crake, Slaty-breasted Wood-rail, Frilled Coquette, Three-toed Jacamar, White-eared Puffbird, Streamer-tailed Tyrant, Firewood Gatherer and Black-capped Donacobius.

Day 8: The day was spent birding the lodge trails and garden. **Species of note for the day included:** Blue-bellied Parrot, Spot-billed Toucanet, Thrush-like Woodcreeper, White-eyed Foliage Gleaner, and Scaled Antbird.

Day 9: The morning was spent at the Regua wetland reserve. After lunch the group birded the lodge trails. **Species of note for the day included:** Grey-headed Kite, Rufous-capped Motmot, Black-capped Foliage-gleaner, Sooretama Slaty-antshrike, Chestnut-backed Antshrike, White-flanked Antwren, Lemon-chested Greenlet, and Swallow Tanager.

Day 10: The group spent the morning around the lodge before departing back to Rio for their flight home at 14.00. **Species of note for the day included:** Canada Warbler and Collared Plover.

During the groups stay we had a combined total of 249 species seen with a further 10 heard. A total of 74 Atlantic forest endemics were seen.
